

عاشت الخلافة!

From Dakar to Jakarta !

And beyond *إن شاء الله* (In Shâ Allah) !

Why ban the **1.6 billion Muslims**
to be governed by Islam? if we take seriously
the « *right of nations to self-determination* »!

Denying the legitimacy and necessity of a
Modern Caliphate means taking sides with the
« *right of the degenerate Western World to own
and control the rest of the World* »... currently in effect!

Once accepted this **position of principle** « as easy as pie »!... there
are obviously many serious issues to bring up and discuss conscientiously:

- Firstly, the outrageous and baseless war being waged between **Sunnis** and **Shiites**, instigated by the western Colonialists for their greatest benefit! Likewise for the division between « **Nationalists** » and « **Jihadists** » (Pan-Arabism against Pan-Islamism).
- Secondly and most importantly, the need for a **Brand New Islam**, establishing at the same time the novel Spiritist **Ecumenism**, and the unheard of **Tolerance** of Matterist Tradition.

« Why claim that the door of *ijtihâd* (Diligence) is closed? Luminaries among the imams are far from having exhausted all the secrets of the Quran! »

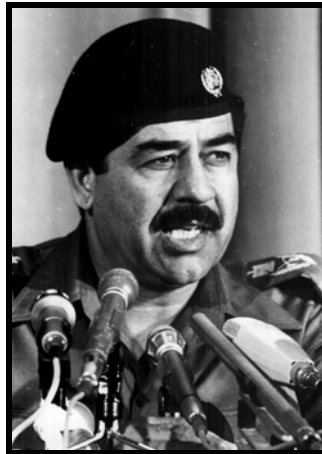

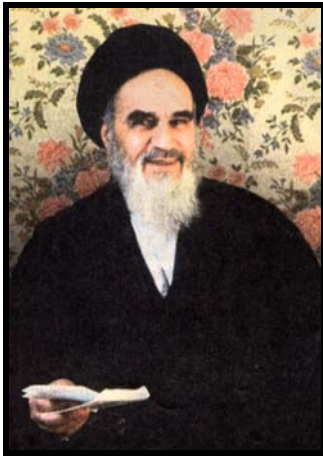

* Long live the Caliphate!

from **al-Afghâni** (1838-1897)
